

Product Warranty and Maintenance

Warranty Information:

As Sign Artisans, we pride ourselves on using the finest signage materials for our products while offering outstanding customer support. We carefully inspect every sign produced before it ships out the door, believing our customers deserve the very best in their signage system. Our products are a reflection of our company, after all. However, if there are imperfections in either the material or craftsmanship of your sign, we will replace that sign at any time throughout the life of your building at no cost to you. And if you have any questions regarding our product warranty, please reach out to our friendly Customer Service Artisans.

Sign Cleaning/Maintenance:

Interior signage should only be cleaned using a non-abrasive cloth (such as a microfiber towel or lint-free paper towel) and a mild soap and water solution or Sprayaway Plastic Cleaner. When cleaning signs, gently wipe with the cleaning solution and blot dry.

NEVER use the following:

- Abrasive cloths, sponges, or scrubbing brushes
- Cloths that were used to clean other surfaces (helps avoid unintended chemical reactions)
- Detergents containing ammonia or solvents
- Methylated spirits, solvents, or any acids
- Detergents containing abrasives
- Alcohol/Isopropyl alcohol
